- 8) oil extraction machine
- 9) Rice pulverizer
- 10) Pully
- 11) Exhaust Fan

{All kinds of spares available here}

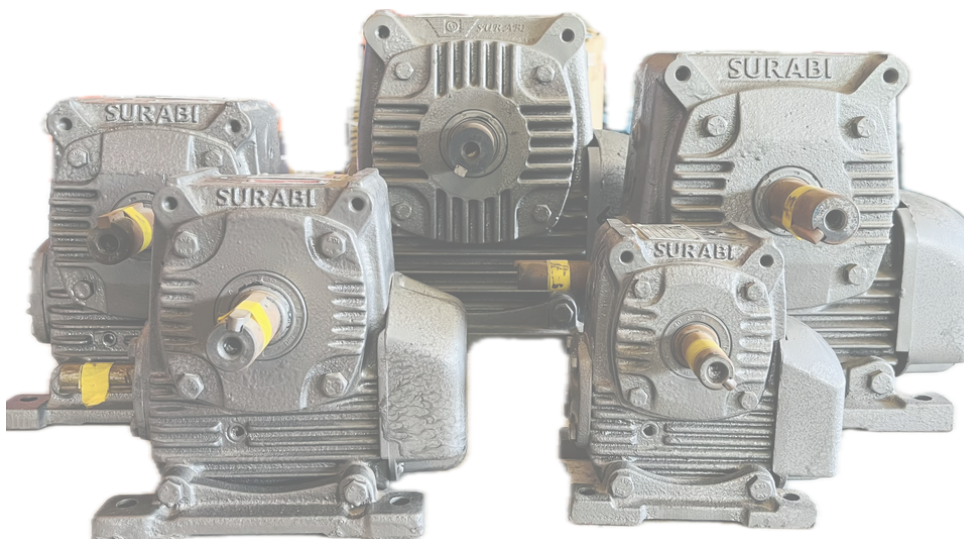

ABOUT US:

Surabi is an independent business that exhibits our dignity by having over four generations of experience (more than 75 years) in the automotive industry. Our major purpose is to provide good sales and service to our loyal customers. Our firm supplies a broad range of equipment and commodities, including motors, generators, electrical appliances, gear boxes, oil engines, water pumps, chemical pumps, stainless steel pumps, chain blocks, pulleys, EOT cranes, and replacement parts for all of the aforementioned things. We generally supply these things to a wide range of industries, including an oil refinery, a rolling mill and foundry, a spinning mill, an oil mill, a process mill, a chemical plant, a dyeing mill, a rice and flour mill, a PVC pipe manufacturer, auto looms, feed mills, and agricultural businesses.

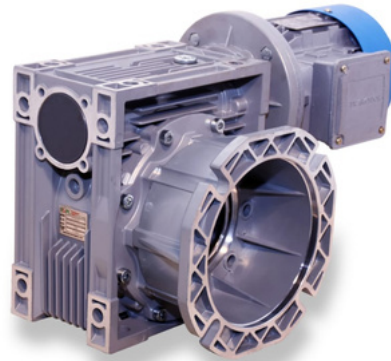

Note:

When customers came to repair the machineries we will do service for the machine, we will also provide the alternative machine for rent during the service time.

We have a large inventory of spare parts for all mills/factories, ensuring that the mills continue to operate even if any of their motor/engine parts fail.

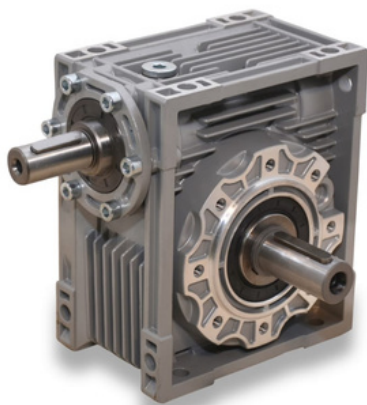

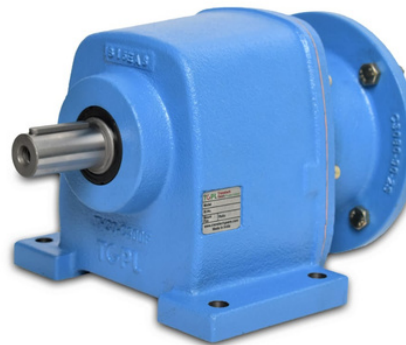

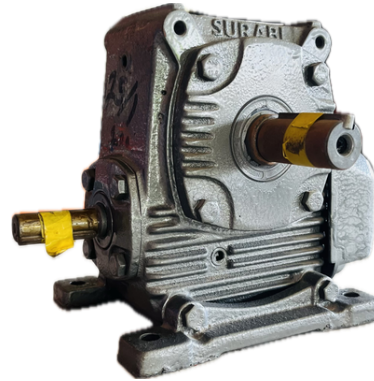

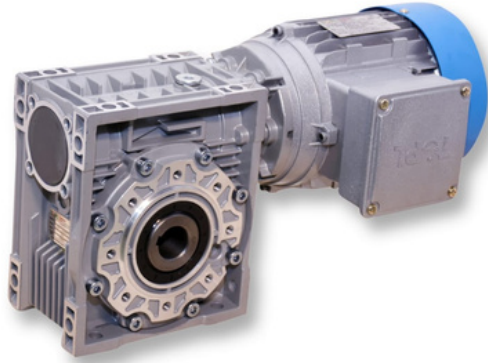

GEAR BOX

NOTE: You can get in all Ratios and in all variants

GEAR BOX

NOTE: You can get in all Ratios and in all variants
